Tropical Cyclone Wind Signals in other areas are hereby lifted			

TROPICAL CYCLONE BULLETIN NO. 26
Tropical Storm PAENG (NALGAE)

Issued at 11:00 PM, 30 October 2022

Valid for broadcast until the next bulletin at 5:00 AM tomorrow

HAZARDS AFFECTING LAND AREAS

Heavy Rainfall

- *Today through tomorrow morning:* Moderate to heavy rains possible over Zambales, Bataan, Pangasinan, Batanes, and the northern portion of Cagayan including Babuyan Islands. Light to moderate with at times heavy rains possible over Cordillera Administrative Region, Tarlac, Pampanga, Cavite, the western portion of Batangas, MIMAROPA, Western Visayas, and the rest of Cagayan Valley.
- Except in areas with significant antecedent rainfall or those still experiencing persistent heavy rainfall, flooding and rain-induced landslides are likely to slowly subside.

Severe Winds

Areas under Wind Signal No.1 may continue to experience strong winds (strong breeze to near gale strength).

HAZARDS AFFECTING COASTAL WATERS

Under the influence of the surge of the Northeast Monsoon and PAENG, a **marine gale warning** remains in effect over the seaboard of Northern and Central Luzon, the western and southern seaboard of Southern Luzon, and the eastern seaboard of Visayas. For more information, refer to Gale Warning #15 issued at 5:00 PM today.

TRACK AND INTENSITY OUTLOOK

- PAENG is forecast to track north northwestward or northwestward beginning tonight through Wednesday before turning west northwestward towards southern China. On the forecast track, this tropical cyclone may exit the Philippine Area of Responsibility tomorrow afternoon or evening.
- While over the West Philippine Sea, PAENG is forecast to re-intensify into a severe tropical in the next 12 hours and may reach typhoon category on Tuesday. However, a weakening trend is expected by late Tuesday as the tropical cyclone encounters another surge of the Northeast Monsoon.

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. **For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.**

The next tropical cyclone bulletin will be issued at 5:00 AM tomorrow.
